

Drew James Anderson  
Millions of Hundred Dollar Ideas

A man with a mustache, wearing a black tuxedo, a white shirt, a black bow tie, and a black top hat, is sitting in a yellow upholstered chair. He is looking directly at the camera. The background features a wall with a complex, repeating geometric pattern in shades of orange and red. To the left, there is a large, intricate, circular pattern on a light-colored surface. The overall lighting is warm and focused on the man.

My name is Drew. I am an Idea person.  
For the past year and a half one of my  
many creative outlets has been a site  
called Millions of Hundred Dollar Ideas.

I'm going to share some of these ideas  
with you.

Enjoy.

Hello.

Art Buy the Inch is an idea I've had for some time now. Basically it's a gallery that only sells 1"x1" works of art. The idea is to sell affordable original works from a variety of artists. The project is currently in transition and hopefully the storefront will be open soon. It's difficult being an idea person and not always having the available tools needed to complete the job. I'm currently on the hunt for a little capital to actually get the doors open. Despite dressing like a billionaire, I'm actually a hundredaire and money sometimes it the key to making ideas a reality.

The space is located on 60th and Glisan in NE Portland. Although not super large my hope is to have the space open as soon as possible. Most likely there will be a small permanent retail part of the store and each month have the space host a rotating exhibit or temporary store front.

I've got big plans for Art Buy the Inch although it will probably be a year or so before all aspects of the idea are implemented.

Describbles is an idea of mine to allow people to suggest images to draw then to draw them. Initially the plan was to charge for this service then later on the service was provided for free.

I felt that this was great practice for quickly drawing a variety of things quickly. Eventually the idea was to put a book together of the images.

This idea is currently on the back burner or is seeking one or more artists to draw requested art.

You describe it and we draw it!

## Money for MoHDI

May 29th, 2007 - No Responses

I love Fred Meyer. With the Rewards programs you are able to get 1% of what you spend every quarter back in the form of gift certificates. A simple bar code sticker helps a small community of supporters add to the MoHDI rewards program. This quarter we have about 4000 rewards points that equivilates to about \$40 to spend on the rewards party at the end of the quarter.

Fred Meyer has yet to catch on although my phone number of 4444444444 no longer works in the system and people helping MoHDI out must actually scan in the barcode.

**GASOLINE**

This sticker was designed for vehicles that do not run on biodiesel or alternative energy sources. My thinking was that since 90% of the biodiesel vehicles out there have some sort of sticker on them then this sticker was bound to make hundreds of extra dollars for me. The sticker has gotten a lot of great feedback from the community and people with the sticker on their cars have had some great experiences having this sticker. 500 stickers are now scattered through the states. Diesel Fuel Prints printed the stickers of course.

These are some of my sketchbooks. Generally I use sketchbooks to start and build my ideas or inventions.

For some reason I love reading business books. I've read all these books and I've realized they are all the same. I'm currently working on a book called "How to make Hundreds in as little as 1 to 3 years".

Can you guess my favorite book of the bunch?

## Dot Com Ments

Comments are everywhere on the web. Now commenting has never been easier or more fun. With the help of MoHDI you can leave comments in style. Comment on peoples pages at social networking sites or blogs or peoples photos you can comment all over the place. Sometimes it's difficult to find just the right words to use to comment on peoples sites now with these MoHDI Dot Com Ments you can easily make magic happen.

Symmetry is Beauty is a small Flash application that allows you to be beautiful. You can place your own image urls into this app and start beautifying yourself. You can also get the code that allows you to place your symmetrical mug on your internet pages.

This is one of many marketing projects I call CoNads. CoNads are my term for content advertising. It's a way I can easily get the word out about Millions of Hundred Dollar Ideas while providing content for users.

Lots of Ideas, some of them are actually good.

When I think of an idea, I will often take notes on it. This is what my notes look like.

Thank you for letting me share a handfull of my ideas with you. Most compiled from my website Millions of Hundred Dollar Ideas, <http://www.mohdi.com>

Perhaps one day I will share with you some of my Million Dollar Ideas.
